Will any of the good farmers

to Book-Farming and a Book-

Auti Book-Farmer: - Yes; but

then you know that facts are stub-

born things; for an illiterate experi

subject under discussion is under-

rant better than, facts. That an ex-

perienced, intelligent negro, is a

better farmer than his learned em-

ployer, who has neither experience

or theory, is certainly a fact, but

by persons ignorant of the subject

under discussion, to bluff the argu-

the theoretical views put forth by

on than the practical facts of expe-

B .- Yes, I mean to say that the

you call theory-are not as reliable

A .- I can't see the force of your

argument. Are not speculation,

hypothesis and theory all the same

dence, and are always uniform un-

A .- Your definition may be cor-

rect, yet I can't see the point. What

had a small farm left him, which

had become unproductive. Hearing

that lime was a good manure, he ap-

plied it on a small piece of ground,

and at the same time applied stable

manure on a similar piece of ground,

which he sowed in clover and oats.

The next year he planted all his

land in corn. The limed land pro-

duced very little if any more than

much as the limed land. By the use

of clover and a proper course of

ously established.

rienced farmers?

Messrs. Editors:

People Driven from Holises by the Rrain

give my experience in the selection An unusual and terrific rain storm of seed, in order to avoid smut .-ecompanied by rain, lightning and I have never been troubled with plan: I take a sand seive and sift ground, as near the city of Jackson | the combined wrath and fury of the | out all the small grains, and in doing elements seemed to have met in | this I get all the cheat out, or nearly son, or Madison county in regard to that of this city. We honestly be- fully invite the attention of said These clouds were veined with lighting, and "thunder-riven." As get seed corn be selects the best mathe dark masses came in contact tured cars; and there is as good they burst asunder, and a deluge sense in the selection of good seed of the beautiful town was literally seed corn; and my opinion is that inundated. Between the churches ing situated in less than 14 miles of and the public square there is a holthe seed might be improved theretegrity, great business capacity, and differently, and as we make it a rule the city. Said lands are level, upon lowdrain, through which the waters by. rushed in maddening torrents. Culof Madison try it. - M. W. W. verts gave way, and crossings were washed off as though they had but A Coloquy between one Opposed he lightness of straw. The water rough this ravine ran to the depth of five or six feet, while the water n the Murfreesboro Pike went up

uto many of the houses. No hous es were washed off, though the rain eached the lower floors of a number. Uncle Joe Ramsy fully appre- enced negro may be a better farmer tated the surroundings, and Squire | than his learned employer, who has Holland, who is eighty years of age, graduated with honor. It may do says he never witnessed the like beore. The children who were at he First Presbyterian Chuch had | tice. be conveyed across in backs and uggies. The colored folks down branch were at service and ound themselves on the banks of a oaring Jordan. Some of them facts, are not so stubborn, when the were after night getting out. The damages to the Corporation stood by the auditor. Nevertheless, re at least \$1,000, while private a fulse proposition, boldly asserted amages far exceed that sum. Warcreek, Beellebuckle and and strenuously adhered to, often tone's river were very much swol- answers the purpose with the ignoen, and Mill creek suddenly rom the heavy rain full. All in all

Into Engines of War. A General Butchery of Travellers Two Fearful Calamities.

Boston, August 26 .- A frightful ccident occurred to-night on the his other land, but the clovered Eastern railroad, at Revere, seven | land produced more than double as miles from Boston. The accommodation train started behind time, and while stopping at the station of clover and a proper course of at Revere, the Portland lightning tilage, Mr. Smith soon had a farm express overtook it and telescoped of etraordinary fertility. He could killing twenty-one passengers not be convinced that lime was of outright, three of whom were women, and wounding some forty or or had their limbs fractured. A large number of physicians and sur-

sengers had. Simultaneously

but a bad commander.

ed in a cloud of hissing steam and

any use on land, or that any poor fifty more. The cars took fire and land could not be made rich by clotwo or three were consumed.— ver, and a proper course of culture.

Most of the wounded were scalded His farm being too small, he sold out, bought a large farm, lying well, mostly in broomsedge, which had ns are in attendance. The killed and wounded mostly belonged to been very poor while in a state of Lynn and Salem. nature, and still remained so. He Boston, August 27 .- The appallmoved, and commenced sowing cloing railroad accident at Revere last night caused intense excitement.— ver, but it would not grow except WOOD AND WILLOW WARE. To-day large crowds visited the on some spots made rich by manure, scene of the disaster. The railroad and this would soon be taken by officials have cleared away the debroomsedge. He thus worried on bris and ruins, and the road is in running order again, At the time for several years, without any perrunning order again. At the time of the collision, the accommodation train for Beverly had its red signal train for Beverly had its red signal his land. He had spent much for train for Beverly had its red signal his land. He had spent much for various kinds of manure, but to no ted at the mast head. The express was telegraphed to hold up, which purpose. He finally sold out to Mr. it did at Everett, but subsequently Brown for less than it cost him .way when near Revere station, the had never been a farmer, but wished engineer evidently not being aware of his proximity to the Beverly to retire from business on a farm .train, until, perhaps, within sixty | He applied lime on the land, after rods. He then whistled down which clover would grow, to the brakes, but not soon enough to a exclusion of broomsedge. And, mmodation train heard the omi- clovering and judicious tillage,-all nous whistle, but it was too late for of which he had obtained a knowlthem to escape. On came the ex- edge of froom books, - he had a fertile farm; exceeding in fertility that J. M. HOUSTON.

mmed into the rear car, the rear somewhat paradoxical. We all part of the latter being smashed in- know that the cause of fertility is to a thousand splinters and throw- the abundance of decayed vegetable ng the debris out on either side of matter in the soil, and sterility the the tender of the rear half of the car; want of it; therefore I can't see why not a fragment as big as a house originally poor, or made so by cultivation. Where is the difference? B .- I have now got you just where I have all the time been trying to get you to the thinking point, for a the Beverly train had started, any person who will think can be A .- I will see you again Mr. B
